Going 'Green'

Control 

BEAM
CENTRAL VACUUM SYSTEMS

NUVO

Control4- "Everyday Easy"

With the Control4 home automation products, there is no denying that your life can be easy and eco-friendly.

Advanced Temperature Control

With the Control4 advanced temperature control, a keypad near your door can automatically signal when you leave to adjust the temperature accordingly, saving time and energy.

Smart Lighting

With Control4 lighting, your lights can easily be programmed so that they come on as needed. Also, using Control4 dimmers can greatly reduce the amount of energy used and therefore, will increase the life of your bulbs.

Home Theater/Multi Room Music

With one simple Control4 remote you can easily access all of your movie and digital music from any room in your home. Control4 has energy saving wireless outlet switches which automatically cut power to A/V devices when not in use.

Beam- "Healthy Living"

Studies show a significant difference between the air quality in homes that have Beam Central Vacuums versus homes that have conventional vacuums

Cleaner Air

Beam Central Vacuum systems have up five times more power than conventional vacuums, which allows for it to remove dust, pollen, mites and other allergens vs. the conventional vacuum which can just re-circulate the allergens..

Self Cleaning Filter

The Beam Central Vacuum System has self-cleaning Gore-Tex filter which is key in catching those small particles and allergens which conventional vacuums cannot.

Healthy Living

A study done at University of California at Davis concluded that persons who suffered from allergy, sleep, nasal, and eye issues and used the Beam Central Vacuum system, showed an average of 50% improvement of these symptoms compared to the others who used a conventional vacuum

Energy Star Efficient

The new Essentia EG6 (Coming Soon!) is one of the industry's most energy-efficient whole house audio system.

Six Sources and Six Zones

The Essential EG6 has six audio inputs and up to six different zones, or rooms of music. (Expandable to up to 12 zones)

NuVo Simplese System

This audio system is a four source, four zone system that has the capability to be expanded up to eight zones.

Keypad Control

Both the Simplese and the Essentia systems have keypad control for each zone or room. There is a built-in IR receiver for each keypad. The NuVo systems make whole house audio convenient and simple.

Be sure to ask about the great NuVo speakers we have to offer to go with the Simplese or Essentia system.
